

GIS Administrator

We are currently seeking a GIS Administrator in our Jacksonville, FL office. The GIS Administrator manages the RS&H graphical information systems infrastructure and provides consulting services to Program Leaders, Project Managers, and associates for GIS-related projects, tasks, and applications. The ideal candidate will be able to maintain the GIS Intranet Website (developing and editing functionality as needed), coordinate the development of custom applications in ArcGIS and ArcIMS, develop logical models, translate detailed design into computer software, test, debug, and refine the computer software to produce the required product, prepare required documentation, including both program-level and user-level documentation; enhance software to reduce operating time and/or improve efficiency. The ideal candidate will be knowledgeable in Enterprise Geodatabase Administration, automation of data back-up, conversion and update data for users and web application, experience designing, implementing, or working with ArcSDE, GIS server, or ArcIMS implementations, database design and programming skills, Net, Visual Basic or Java programming experience.

Some responsibilities include, but are not limited to:

- Experience in working with clients/associates to define and document application requirements
- Provide consulting services for GIS-related projects, tasks, and applications
- Experience chairing a GIS Advisory Committee and GIS Users' Group
- Provide/coordinate GIS training
- Industry knowledge in transportation, municipal, county and/or water/wastewater utility environments
- Experience in developing database driven applications utilizing either SQL Server or Oracle database platforms
- Strong communication skills and ability to work with a diverse group of people
