**Merrick & Company Congratulates its
Newly Certified GIS Professionals**

Denver, CO USA – Merrick & Company, a world leader in LIDAR, digital ortho imaging, photogrammetry and GIS mapping congratulates Gary D. Outlaw, Vice President – Business Development and Torin P. Haskell, Sr. Account Manger for Merrick’s GeoSpatial Solutions business unit on their recent certification as GIS Professionals (GISPs) by the GIS Certification Institute (GISCI).

According to GISCI, the certification program requires achievement in three areas: educational achievement, professional experience, and contributions to the profession. The certification recognizes Outlaw’s and Haskell’s first-rate professional competence and integrity in the field of GIS.

Visit the GISCI on the Web at www.gisci.org.

###

About Merrick & Company

Founded in Denver in 1955, Merrick & Company is a world-leading multidisciplinary engineering, architectural, geospatial solutions, and construction management firm. The employee-owned company provides these services to municipal, state, federal, and private-sector clients. With approximately 400 employees, Merrick has offices in Aurora and Colorado Springs, CO; Los Alamos and Albuquerque, NM; and Atlanta, GA.
