Note: Conference Attendance claims do not need documentation. This will only be in effect during the GISCI “Transition Period” which will last until December 31, 2008. After this date, **all** point claims will need proper documentation. Although not mandatory, applicants are advised to submit proper documentation for all point claims, as undocumented claims may be scrutinized to a higher degree. Also, GISCI will conduct Random Accuracy Checks (RACs) on certain applications to determine if undocumented claims are factual. If a claim is found to be incorrect or misstated the application will be rejected and a processing fee will be charged to the applicant.
