

Presenting on Behalf of GISCI - Appropriate Use Policy

GISPs are often asked to publicly address the mission and purpose of GISCI or its initiatives, programs, and policies. Presentations and templates are provided for use in delivering a consistent and uniform message on the selected topics and themes. When a script is provided, the Board asks that it be followed to keep the message clear and concise. Often the speaker is asked to speculate or opine on the future direction of GISCI or the impacts of the Institute's actions. Please do so with the audience's understanding that it is your opinion, and not that of GISCI, unless you have been authorized to do so by the GISCI Board of Directors. Details of the presentation discussions and any issues raised should be reported immediately to the GISCI Executive Director.

Adopted by GISCI Board of Directors May 25, 2023
